Recent graduate with 1 year of experience in web development, including hands-on experience building web applications using React and Django, with a good understanding of back-end technologies. I have a proven ability to design and develop user-friendly web interfaces and implementing modern web development practices. My experience as a programming instructor has also helped me to develop strong problem-solving and communication skills. Fast learner and a team player, excited to bring my skills and knowledge to a new role and to continue to develop my skills in a professional setting.

TECHNICAL SKILLS

Front-end	:	React, Next.js, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, Redux
Back-end	:	Node.js, Express.js, Python, Django, MongoDB, PostgreSQL, REST
Tools	:	Git, GitHub, REST, TypeScript, MS Office, Adobe Suite, Chrome DevTools
Deployment	:	AWS, Vercel, Heroku, Netlify

EDUCATION

Lassonde School of Engineering, York University   **2018 – 2022**

B.Sc., Honours: Double Major in Computer Science & Economics

WORK EXPERIENCE

Freelance Front-End Developer   **Mar 2022 - Present**

- Developed and maintained front-end web applications using React, NextJS, and Tailwind for local businesses and personal projects.
- Worked with clients to understand their needs and goals, and designed and developed custom web solutions that met their requirements.
- Built and launched several e-commerce websites, landing pages, and portfolios for different clients in various industries.
- Utilized Git for version control and project management, and deployed the web applications to the client's servers.
- Continuously improved the web applications' performance and user experience based on feedback from clients and users.

Full Stack Developer (Contractor)   **Dec 2020 – Dec 2021**

Medcan, Mississauga, ON

- Designed and developed an eCommerce platform using React and Django that improved the company's online sales by 25%.
- Created a user-friendly interface using React and Bootstrap, including a complete admin panel with the ability to manage an online store, products, and all of its customers.
- Built a RESTful API using the Django framework and PostgreSQL that improved the application's performance and scalability.
- Utilized Redux as a state management library to have a consistent behavior between the client and the server.
- Added and maintained features such as pagination, cart, checkout, admin panel, reviews, and more.

Programming Instructor   **Aug 2018 – Aug 2020**

BCS Bangladeshi-Canadian Community, Toronto, ON

- Developed a 12-week course based on a 1st year University "Introduction to Computer Science" course.
- Taught python programming language to a classroom of up to 12 students ages 15 to 24.
- Ensured that no one falls behind and assisted students on an individual basis.
- Created quizzes, assignments, and projects to evaluate the students' understanding and progress.
